
Invitation: analyst and investor conference

**Leclanché SA 2012 Financial Results to be announced on
Tuesday March 5th 2013**

Yverdon-les-Bains, 1 March 2013 – Leclanché S.A. (SIX Swiss Exchange : LECN), specialized in the production of large-format lithium-ion cells and energy storage solutions, will discuss its full-year 2012 financial results and achievements during **an analyst and investor meeting taking place on Tuesday March 5th 2013 in Zurich**. The company will also provide a strategic business update.

Leclanché's strategy is to expand its position as one of the leading European lithium-ion cell producers and solution providers for lithium-ion energy storage systems for the storage of renewable energy in Europe. The company's priority is on stationary home residential energy storage applications and on expanding into the stationary industrial and grid storage markets.

Place: Storchen Zürich, Weinplatz 2, 8001 Zürich
Date: Tuesday March 5th, 2013
Time: 14:15 CET
Speakers: Ulrich Ehmes, CEO
Klaus Tönnemann, CFO
Pierre Blanc, CTO
Joe Mangion, Talisman Infrastructure Ventures LLP

In addition, **a live audio webcast** of the meeting will be accessible on the Leclanché web site: www.leclanche.ch. A replay of this teleconference will be made available one hour after the conference, on the Leclanché web site.

Analyst and investors wishing to ask questions during the conference are invited to call at 14:15 CET (13:15 GMT/ 8:15 EST) using the following conference-ID: 4605014 and one of the following dial-in numbers:

- Switzerland: +41 (0) 225927312
- UK: +44-207-153-2027
- USA: +1-480-629-9673

We would be grateful if you **could confirm your participation** in the meeting or the conference call by sending back the attached reply form to the attention of Chiara Valsangiacomo (cva@dynamicsgroup.ch; T: +41 22 308 62 33, F: +41 22 308 62 36)

About Leclanché

Leclanché is a leading manufacturer in Europe of large-format lithium-ion cells. Through a unique, licensed separator technology, the core element of lithium-ion cells, Leclanché is capable of manufacturing cells with above-average safety features and significantly increased longevity in an automated production process. The company's core markets are market segments, which have highest demands on energy storage systems. They include residential and industrial energy storage applications as well as grid storage markets. Leclanché currently employs 117 staff and recorded revenues of CHF 16.1 million in 2012. The company is headquartered in Yverdon-les-Bains (Switzerland) and has production and development facilities located in Willstätt (Germany). Leclanché is listed on the SIX Swiss Exchange (LECN).
