10. Ratification of Carve-Out, Amendment of Company's Purpose and Financial Restructuring Measures

10.1 Overview

As per 31 December 2021, the Company was and still is over-indebted according to art. 725 para. 2 Swiss Code of Obligations ("CO"), but has sufficient subordinations in place to cover the negative equity. During 2022, debt owed to SEFAM in the aggregate amount of approx. CHF 77,574,893 was subordinated, which improved the balance sheet situation of the Company temporarily.

As a financial restructuring measure and for optimizing the group structure in view of a potential strategic transaction, the Board of Directors evaluated suitable measures and the Company has carved-out its eTransport business into a wholly owned Swiss entity, Leclanché E-Mobility SA, with legal effectiveness as per January 1, 2022 (the "Carve-Out"). As one strategic option, there was the intention

to merge Leclanché E-Mobility SA with a Special Purpose Acquisition Company (SPAC) (e.g. based abroad and listed at a stock exchange in the USA) or to enter into a business combination agreement with another investor. In connection with the Carve-Out, Leclanché E-Mobility took over assets in the amount of CHF 65,882,000 and liabilities in the amount of CHF 40,283,000<sup>2</sup> of the eTransport business from the Company. The Carve-Out was implemented as a contribution ("reprise de biens") and took place without consideration. Following the Carve-Out, the eTransport business has been and is fully operated and managed by Leclanché E-Mobility SA and, therefore, the Board of Directors suggests that this structural change shall also be reflected in the description of the purpose of the Company in the Articles of Association.

Given the financial distress situation of the Company, further financial restructuring measures are proposed, which are aimed at improving the balance sheet situation. Specifically, the Board of Directors proposes a conversion of existing debt in the amount of CHF 41,339,957.31 into equity through an ordinary capital increase. In order to address this situation, the Board of Directors has agreed with SEFAM and Golden Partner ("**GP**") to convert a portion of the debt owed to SEFAM and GP in the aggregate amount of CHF 41,339,957.31 ("**SEFAM and GP Debt**") into 109,618,116<sup>3</sup> registered shares of the Company with a par value of CHF 0.10 each, subject to fulfilment of the requirements pursuant to Swiss law and subject to approval of the shareholders' meeting of the Company (the "**Debt-to-Equity-Conversion**").

In order to implement the Debt-to-Equity-Conversion, the pre-emptive rights of shareholders will have to be excluded in connection with the required capital increase, which requires shareholders' approval with a qualified majority.

The following legal entities belonging to SEFAM and GP are parties to the relevant financing agreements and shall be part of the proposed Debt-to-Equity-Conversion (the "**Creditors**"), and they have committed to convert the below amounts into equity:

- AM Investment S.C.A. SICAV - FIS - R&D Sub-Fund ("**AM R&D**") will convert claims of maximum CHF 1,608,393.86 against the Company representing due interests up to 30 Sep 2022 under loan agreement dated 25 June 2021, as amended from time to time (the "**AM St. Kitts Construction Loan**");
- AM Investment SCA SICAV-SIF – Illiquid Assets Sub-Fund ("**AM Illiquid**") will convert claims of CHF 3,297,000.00 against the Company under a loan agreement with the Company dated 31 May 2021, as amended from time to time (the "**AM N&G Proceeds Loan**") and related interests up to 30 Sep 2022 for CHF 360,873.17;
- AM Investment SCA SICAV-SIF – Liquid Assets Sub-Fund ("**AM Liquid**") will convert claims of CHF 20,400,000.00 against the Company under a loan agreement with the Company dated 4 February 2022, as amended from time to time (the "**Working Capital Bridge Loans** ") and related interests up to 30 Sep 2022 for CHF 1,300,305.71;
- Golden Partner FOF Management Sàrl will convert claims of CHF 9,600,000.00 against the Company under three loan agreements dated 18 October 2021, 22 November 2021 and 13 December 2021 as amended from time to time (the "**GPFof Bridge Loan Agreements**") and related interests up to 30 Sep 2022 for CHF 817,080.53;

---

<sup>2</sup> The figures are book values based on an indicative pro-forma balance sheet, which was prepared for the Carve-Out of the eTransport business as per 30 June 2021.

- Strategic Equity Fund SCA SICAV FIAR (renewable Energy - RE) ("**SEF RE**") will convert claims of maximum CHF 1,874,938.15 against the Company representing due extinguished loans agreement dated 30 June 2018, as amended from time to time (the "**Facility B/C Loans**"), dated 10 August 2018, as amended from time to time (the "**ROFO Loans**"), dated 7 June 2019, as amended from time to time (the "**WCL 2019 Loans**"), dated 27 December 2019, as amended from time to time (the "**WCL 2020 Loans**"), dated 5 December 2018 as amended from time to time (the "**CL and CL Extension Loans**").

The SEFAM and GP Debt to be converted at Volume Weighted Average Price (VWAP) calculated over the 10 days preceding 2<sup>nd</sup> September 2022 for:

- Working Capital Bridge Loans converted at 75% of VWAP
- GPFOF Bridge Loans converted at 80% of VWAP
- All other Loans at 85% of VWAP

The proposed Debt-to-Equity-Conversion shall serve to improve the financial status of the Company and its balance sheet position.

If approved by the Annual General Meeting 2022, the Board of Directors will have to implement the Debt-to-Equity-Conversion within three months after the shareholders' meeting. The implementation requires meeting SIX Swiss Exchange's requirements with respect to listing of new shares. Ratification of Carve-Out and amendment of Company's purpose.

#### **10.1.1 Proposal of the Board of Directors:** The Board of Directors proposes that the shareholders meeting approves and ratifies the Carve-Out.

***Explanation:** The Board of Directors decided and implemented the Carve-Out as a financial restructuring measure and as a corporate reorganization to optimize the group structure in view of a potential strategic transaction. In connection with the Carve-Out Leclanché E-Mobility SA took over assets in the amount of CHF 65,882,000 and liabilities in the amount of CHF 40,283,000<sup>4</sup> of the eTransport business from the Company. The Carve-Out was implemented as a contribution ("reprise de biens") and took place without consideration.*

**10.1.2 Proposal of the Board of Directors:** The Board of Directors proposes that the shareholders' meeting approves to amend Article 2 of the Company's Articles of Association (Purpose of the Company) as follows:

Current Version	Proposed Version (changes underlined/strikethrough)

**Explanation:** The Company has transferred its eTransport business to Leclanché E-Mobility SA, with legal effectiveness as per January 1, 2022 with the Carve-Out. The Articles of Association shall reflect this structural change, that the eTransport business is now operated by a wholly owned subsidiary of LECLANCHE SA, i.e. Leclanché E-Mobility SA. Therefore, the purpose of the Company as set forth in article 2 of the Articles of Association, shall be amended so that the new main purpose of the Company shall be the direct and indirect acquisition, management and sale of participations in domestic and foreign, listed and non-listed companies, in particular companies in the electrical industry. As the specialty and stationary business shall continue to be operated by the Company, the Company's purpose shall also hold, that the subsidiary purpose of the Company is the designing, developing and assembling electronic storage systems. The Board of Directors proposes to amend the wording of the purpose of the Company in a broad way, to ensure that the Company has the required flexibility for a strategic transaction (such as a sale or other business combination).

**Explanation:** *The Company has a negative equity and is over-indebted in the sense of art. 725 para. 2 CO. For improving the financial status of the Company and its balance sheet position, the Debt-to-Equity-Conversion is proposed. In order to implement the Debt-to-Equity Conversion and to issue the required number of new shares to the Creditors, it is necessary to increase the Company's share capital in the nominal amount of CHF 10,961,811.60<sup>3</sup>, thereby excluding the pre-emptive rights of shareholders.*

*Given the Company's situation, the need to obtain a proportionate underwriting commitment from all shareholders and the reluctance of financial institutions supporting the Company in this exercise to attract new investors, the Board of Directors concluded that organizing a rights issue open to all shareholders was and still is not a viable option.*

## 11. Set-off of Accumulated Losses with Capital Contribution Reserves

**Proposal of the Board of Directors:** The Board of Directors proposes to set-off accumulated losses and the loss of year 2021 in the total amount of CHF 55,710,392.54 with capital contribution reserves.

**Explanation:** *The Board of Directors proposes to set-off accumulated losses with capital contribution reserves, thereby partly eliminating the existing loss of capital.*

## ANNEX 1: EXPLANATIONS TO AGENDA ITEM 12

As required by the Ordinance against Excessive Compensation in Listed Stock Corporation (OaEC) and the Articles of Association, the Board of Directors will propose for shareholders' approval:

1. the maximum aggregate amount of Board of Directors' compensation for the period until the next AGM in 2023<sup>4</sup>
2. the maximum aggregate amount of the Executive Committee's compensation for the financial year 2023<sup>5</sup>

The proposed amounts submitted for approval at this year's Annual General Meeting of shareholders are aligned with our compensation policy.

Also, we have given you the opportunity to vote under agenda item 1.2 on a consultative basis on the Compensation Report 2021.

### **Explanations Concerning the Proposed Maximum Compensation Amount of the Board of Directors (Agenda Item 12.1)**

The proposed aggregate maximum compensation amount of CHF 600,000.00 is payable to the Board of Directors and, as an indication, consists of fixed fees. This amount is identical to that of the prior period.

In addition, the Company pays compulsory social security insurance contributions to Board of Directors who get paid through the Swiss payroll, as required by law. No variable compensations or pension benefits are awarded to members of the Board of Directors.

### **Explanations Concerning the Proposed Maximum Compensation Amount of the Executive Committee for the Financial Year 2022 (Agenda Item 12.2)**

The Board of Directors is seeking approval for CHF 4,700,000.00 as the maximum aggregate amount of the Executive Committee's compensation for the financial year 2023. This amount is identical to that approved for financial year 2022.

In accordance with the Articles of Association, the Board of Directors submits at each year to the Annual General Meeting of shareholders for approval the maximum compensation of the Executive Committee for the next financial year. The proposed aggregate maximum compensation amount includes the base salary, the variable short-term compensation (bonus) as well as the variable long-term compensation paid or awarded in that year.

As disclosed in the Compensation Report 2021, the compensation of the Executive Committee amounted to CHF 1,795,000 in the financial year 2021. The proposed aggregate maximum compensation amount is in line with the Company's current compensation policy.

The aggregate maximum compensation amount is a budget and based on the assumption that each member of the Executive Committee and the Company will have fully achieved all target objectives. It should not be regarded as the compensation amount that will be actually paid or awarded.

In addition, the Company pays compulsory social security insurance contributions as required by law.
